GEWA® Quality

For more than 40 years we are producing practical rubber and plastic articles for the agricultural sector and for more than 15 years also for professional equestrian.

We are producing consistent best quality "Made in Germany" on modern machines. The applied plastic material is extremely durable and food-safe. Therefore our products differ from those of low-cost-producers and guarantee a long durability and value.

Flexibility is our strength and your satisfaction our primary objective.

We are looking forward to good cooperation.

Your GEWA® - Team

7660

Easy manure collector

Thanks to its well-thought-out design mucking out is very comfortable with the easy manure collector. The new developed hand piece makes carrying the full manure collector much easier and it relieves your wrist. The plastic rake is pleasantly light to carry and can be easily clipped on the collector for economic storage. Your ideal companion in stable and at tournaments. Can be delivered mounted and unmounted.

7659

ECO manure collector

At first sight it looks like most of the common manure collectors. Only when using it you can see its many advantages. It is much lighter than other manure collectors but also very stable and long-lasting. Because of the extension of the handle the center of gravity moves backwards and so carrying is facilitated. The plastic rake is very light and can be easily clipped on the manure collector for economic storage. Can be delivered mounted or unmounted.

Manure collector XL

The manure collector XL is mainly used for riding arenas and halls. The large shovel has a long durability because of the very robust plastic material. The extended handle facilitates carrying very much. A useful tool for saving time and treating the riding surface with care. The manure collector XL is delivered with a rake made of durable plastic which makes collecting manure much easier. Can be delivered mounted or unmounted.

1) mounted / 2) unmounted

Manure collector Shaker

The Manure collector Shaker is a novelty on the world market. The unique design allows an easy dividing of dung, litter and sand. Just by shaking the manure collector, chips and sand fall through the slots and the manure remains safely in the shovel. Ideal for the use in riding grounds and halls - also for cleaning the boxes. Can be delivered mounted or unmounted.

Rake for manure collector

The new developed rake, suitable for all Gewa manure collectors, is perfect for the cleaning of riding grounds, riding halls and stables. Also for the use on paddocks to avoid rank patches or for cleaning the truck. Thanks to the special shape of the rake the horse droppings can be easily and cleanly removed from the riding surface. The rake is made of resistable plastic and has consolidated tines which considerably raises its life endurance. The rake can also be used for gardening. A suitable stick is optionally available.

7632

Dung fork PRO, small

Dung fork PRO was designed for long-time application in stables. It consists of extremely stable material and stands up to heavy strains. It's even ready for use at very cold temperatures in winter time. Thanks to its special shape the dung can easily be separated from litter. Lateral elevations prevent the horse droppings from falling down.

7642

Dung fork PRO, large

The special material of the dung fork is dimensionally stable and ready for use at very cold temperatures. Because of its deepened special shape a lot of dung can be separated quickly from litter.

Dung fork PRO light

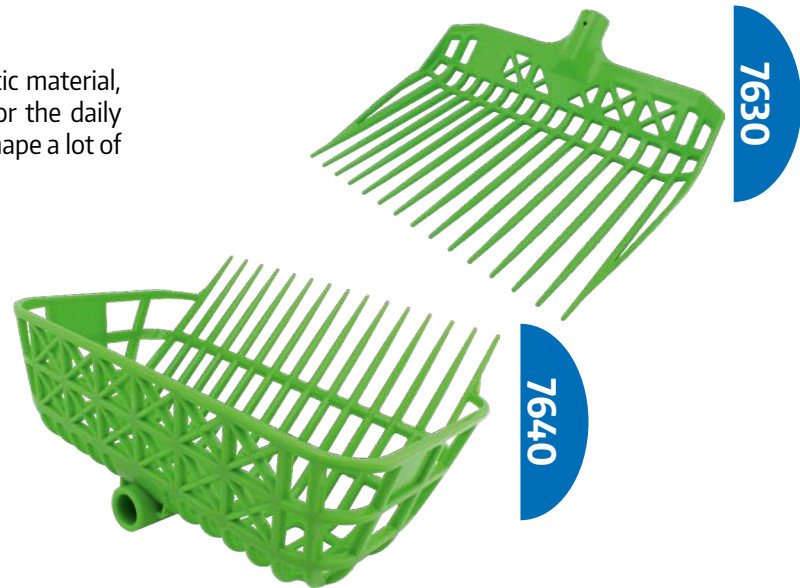

Our new dung fork PRO light combines all advantages of our PRO series. Besides extremely stable material, which can be used at very cold temperatures, the sides of the dung fork were heightened for targeted mucking out. Thanks to a light weight also appropriate for children.

7635

Dung fork special

Made of hard-wearing and shock resistant plastic material, our green dung fork was developed specially for the daily use in stables. Because of its deepened special shape a lot of dung can be separated quickly from litter.

Dung fork ECO

Our dung fork ECO is characterized especially by an excellent price-performance-ratio. The material promises high robustness at low price. Suitable as well for stable use as for gardening.

Feeding trough with ejection and biting edge

Feeding trough, 14 litres

This thick-walled trough made of high quality plastic material is very durable. Because of the integrated biting edge and reinforced front struts it is very resistant. Thanks to its rounded shape there will be no remaining feed. Available with 20 mm hole and drain screw for easy cleaning on request.

- **Optionally available with ejection and biting edge for higher durability**
- **For wall mounting**

6231

Foal trough, 8 litres

Optimized for feeding supplementary feed for foals. The 3 easily adjustable steel rods prevent that the mare can access the feed, so only the foal can reach the feed. Its stable and shatterproof plastic material guarantees long durability.

Art. No.	Article description						
6231	Foal trough, 8 litres	8 l	23 cm	30 cm	30 cm	2000 g	60

Trough for concentrated feed, 11 litres

This trough was developed for quick and easy feeding of supplementary food. Because of the optional hooks and the integrated handle the trough can be brought quickly from one horse box to the other. Available with 20 mm hole and drain screw for easy cleaning on request.

• Hooks Art. No. 1192 or Art. No. 1193 optionally available.

5071

Flexi lickstone holder

This flexible holder is appropriate for holding 10 kg lickstones. Because of its flexible material it yields to impacts and therefore protects against injuries. It can be screwed quickly and easily onto the wall because of pre-drilled holes.

Art. No.	Article description							
5071	Flexi lickstone holder	10 kg	21 cm	22.5 cm	20 cm	520 g	200	30

Drinking bowl with tongue

The drinking bowl made of impact-resistant plastic material is well suited for permanent use in stables. The tongue is delivered incl. lock and can be released very easily because of a smooth spring. The 1/2"-water connection can be mounted from the top or from the bottom and has a flow of approximately 15 litres per minute. Wall or pipe mounting is possible.

Art. No.	Article description					
6210	Drinking bowl with tongue, small	18 cm	21 cm	28 cm	1400 g	100
6215	Drinking bowl with tongue, large	22 cm	26 cm	31 cm	2000 g	50

Drinking bowl with pendulum valve

This very stable bowl is very simple to use because of its built-in pendulum valve. Water flows as soon as a horse touches the valve. The 1/2"-water connection can be mounted from the top or from the bottom and has a flow of approximately 15 litres per minute. Wall or pipe mounting is possible.

7651

Rope holder

The rope holder offers an optimal support for ropes and holsters. Its big hook allows quick hanging-in and hanging-out.

- **Screws included**

7654

Snaffle holder

Our easy to mount snaffle holder is suitable for the storage of all kind of snaffles. The broad and round contact area prevents buckling of the headpiece and is gentle to the leather. On the additional hook you can fix other riding equipment.

- **Screws included**

7652

Handle holder

For secure fixing of shovels, brooms and dung forks. Rounded form for protection of rider and horse.

- **Suitable for handles with Ø 28 mm and manure collectors**
- **Screws included**

Blanket holder

Holding system for optimal storage for all kinds of blankets. Thanks to the variable adaptable chain the holder can be mounted in every stable. If the horse should press the rider against the blanket holder there won't be any bruised ribs like it could happen with a metal holder.

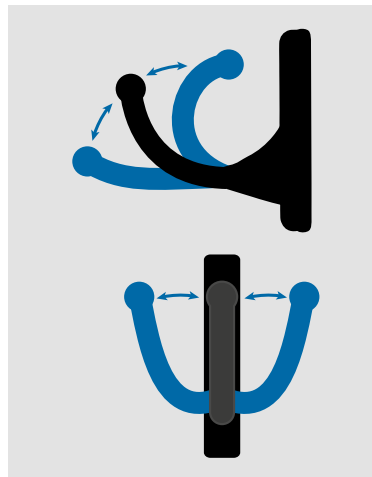

- **Length of the chain: 150 cm, variable adaptable**
- **Screws included**

High quality promotional items will always be reminded!

Boring giveaways like pens aren't up-to-date any more. But our useful promotional gifts will impress your clients for a long time.

Many of the items in this catalogue can be produced in your desired colour and printed with your individual advertising message.

As a German producer we guarantee best quality to favorable prices. Thanks to our long-standing practice we are able to help you to find a suitable product with promotionally effective print.

Send us your logo and we'll do the rest.

Don't hesitate to buy best quality – it's your good name that will be seen on it!

Your advantages:

- high quality products directly from the manufacturer
- useful and long-lasting advertising
- design service
- short production times

On modern screen and tampon printing machines we create your ideal promotional medium with high efficiency.

What we need from you:
Vectorized file (.eps or .pdf)

If you don't have any vectorized file we can create it for you. The costs will be calculated according to effort.
